The E-Lite 5 is a full size road going scooter with one big difference. It's electric and legal for over 14's. It has all the street-cred of a regular petrol scooter and more and at less than half the price you'll be doing your pocket a favour as well as the environment.

The E-Lite has a removable battery for convenient charging but can also be charged on the scooter.
For legal reasons there is a speed limiter which can be overridden for off-road use.
